VOLUME 33: No. 14

Authorized as Second Class Mail, Post Office Department, Ottawa  
ACME, ALBERTA, THURSDAY MAY 13th, 1954

\$1.50 a Year; 5c a Copy

Mrs. Mary Prowse was elected as delegate to attend the Home and School Convention at Edmonton May 10, 11, 12.

Eddie Cannings had the misfortune to break his arm and was a patient in the Drumheller hospital.

Mr. Graham returned home on Saturday after spending the past month at points in B.C.

Several enthusiastic hockey fans motored to Calgary Monday evening to see the game between Calgary Stampeders and Quebec Aces.

Mr. and Mrs. J. Stubbert have left to take up residence in Drumheller where Mr. Stubbert will enter the gas fitting business. B. Stubbert has taken over the business of Stubbert Plumbing.

Mr. and Mrs. Fred Schmierer and Gail spent Mothers' Day at the home of their daughter and son-in-law, Mr. and Mrs. F. Higginbottom at Elnora.

Mr. and Mrs. James Smith of Kelowna, B.C. were weekend visitors at the home of Mr. and Mrs. Len Poxon at Carbon and Mr. and Mrs. Fred Poxon of Drumheller.

Mr. and Mrs. Frank Ginther (nee Lois McAlpine) spent Mothers' Day at the home of Mr. and Mrs. McAlpine.

Mr. and Mrs. Fred Poffenroth and Mr. and Mrs. Jack Shale were Sunday visitors at the home of Don and Violet Pattison.

STRAYED—One Black Yearling Steer in vicinity of Grainger district. If seen please notify Ed. Grabinsky, Beiseker or phone 1403, Acme.

Mr. and Mrs. Norman Nash motored to Calgary Monday.

Mr. and Mrs. Gus Gleck spent the weekend visiting relatives and friends at Alexo, Alta.

Don't forget the Bingo in the Legion Hall Sat. the 15th. Proceeds go to the baseball club.

Mr. and Mrs. Oliver Johnson and children spent a couple of days this week in Calgary.

Mr. and Mrs. Gimbel, Shirley and Dale spent Sunday in Calgary at the home of Mrs. Henry Luft.

The regular meeting of the Home and School was held on Thurs., May 6th with the President, Leo Ohlhauser in the chair. The meeting opened with O Canada and Prayer by Rev. Miller.

Discussions were held on the coming graduation banquet and it was decided it would be held May 31st in the basement of the Baptist Church. The scholarship that had been discussed previously was tabled till next year owing to lack of funds. Mrs. Prowse was elected as delegate to attend the H. & S. Convention in Edmonton.

We wish a good turnout at the next meeting to hear the aims, objects and work of the H.S.A. Please let us rally and make the next meeting a record attendance on Thursday, June 3rd, 1954. The meeting adjourned with O Canada and lunch was served by the hostesses for the evening.

## DRUMHELLER PRESBYTERY RALLY AT SWALWELL

The Drumheller Presbytery (West) Rally was held at Swalwell on April 29th. There were about 60 U.C.W.A. members gathered for the meeting. About 11:30 a.m. each member registered and paid a 25c registration fee. They then assembled in the Church kitchen where a welcome was

## BOY SCOUT ACTIVITIES

Last Saturday the regular meeting was held at 2 p.m. with all but Bob Hood (who was sick at the time but back in school on Monday) present. Mrs. Isaac, who is a patient in the Drumheller hospital, received flowers sent by the boys who all chipped in. Speedy recovery, Mrs. Isaac, from the Carbon Boy Scouts.

Saturday was a test passing day but a few games were managed to be played. Wayne Garrett, John Kirkes and Donald Drexler have almost completed their 2nd Class Badge and soon will start with Proficiency Badge Work. Donald Kary has quit Badge Work for the time being and is passing boys in the Tenderfoot Stage. The two P.L.'s, Bill and Art, were busy passing boys in 2nd Class Work.

About four p.m. the boys were dismissed.

Oh, by the way, Ronald Fox and Art Hoivik each received 10 merits, being the first boys to wear shorts (complete uniforms) this year.

—Art Hoivik—

given by Mrs. Tillie Wacker, President of the Swalwell W.A. Mrs. Zurbrigg of Drumheller replied with a vote of thanks and then introduction of groups was made from Acme, Beiseker, Carbon, Drumheller, Irricana, Munson, Morrin, Swalwell, Sunnyslope, and Three Hills, after which Grace was sung and a delicious luncheon served.

The ladies assembled in the Church where the meeting began about 2:30 which opened with the singing of the correction of The Theme Song of the U.C.W.A.

A welcome was then given by Mrs. Jackson of Acme. Welcome was also given by Rev. Syer of Acme, who spoke on Christian Education and Christian Training of Children.

The Devotional was conducted by Mrs. Hughes of Three Hills assisted by Mrs. Richardson and Mrs. McCam.

We were then favored with a hymn "There Were Ninety and Nine" beautifully rendered by Mrs. Upton of Three Hills.

The W.A. Motto, led by Mrs. Collinge of Acme, was repeated by the guests.

After which the President of each W.A. group gave some very favorable reports of their 1953 activities.

Mrs. Acton of Drumheller gave a very interesting talk. She said we should aim to deepen the spiritual life of our members and also stressed the fact that \$900 was urgently needed for Ministers Training in St. Stephens, in financial difficulties, and urged each W.A. Group to donate to this fund. Donations are to be sent to Dr. Thompson, St. Stephen's College, Edmonton.

Mrs. Seiwert of Morrin gave a very interesting talk about the Conference at Edmonton which she attended.

Mrs. Syer of Acme gave an inspiring address on Christian Education.

"In Memoriam" was given by the Beiseker group.

Mrs. Acton of Drumheller gave an interesting talk on the aims and objects of the U.C.W.A., this being to inspire interest in and loyalty to the Church, and to develop a program of Spiritual and

Christian Fellowship. She gave statistics that there are eight organized Presbyteries in Alberta. There are 10,625 U.C.W.A. members who collectively raised an amount of \$276,249.46.

The meeting concluded with an address by Rev. Syer of Acme who spoke on Vacation Schools for Boys and Girls of which Mrs. McKinley, Edmonton is head.

Tea was then served to the guests in the Church basement, concluding a very interesting and instructive day.

## RECREATION LEADER TRAINING COURSE

....A four-week training course for part-time community recreation leaders will be offered again this year at the Red Deer Composite High School July 5—31.

Candidates for the course must be physically fit, be prepared to give leadership in community activities, and obtain nomination for the course by a local recreation authority or community organization.

Certificates entitling graduates to receive employment on a part-time basis in community recreation activities, are awarded to all those completing the course successfully.

Two courses are offered this year by the Health and Recreation Branch of the Alberta Department of Education. The main course will be for persons at least 17 years old and will include gymnastics, first aid, folk, square and tap dancing, games and other associated subjects. The second course, which will be offered if there is sufficient interest, will be designed for persons over 20 years old and will include more adult subjects such as arts and crafts, elementary dramatics, clubs and hobbies, recreation for family living and social dancing.

## Revered Building Ends Sixty Years Of Service To Morden

—Photo courtesy of Morden Times.

MORDEN, Man.—The old school—as it was known to thousands who passed through its portals—is gone! The once majestic stone building whose service ended last year with the building of the new and modern high school is now completely razed. Little now remains. Stone from the building went to various spots.

The International Peace Garden will have some of the fine old stone gracing parts of it. It is hoped that the proposed gateway to the beach at Lake Minnewashta in Colpert Park will be banked by some of the square cut granite. Some went into the base of the diving tower at the beach, loads were hauled to various parts of this district for as many purposes.

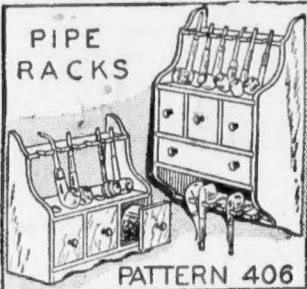

Sixty-one years ago the school board of Maple Leaf Schools was faced with the same problem as the present board—lack of space. There had been a heavy influx of settlers and many had moved from Nelson—replacing the old log building south of town—was not enough. The late Stuart Scott and James Nelson moved into town to become the first court house and jail in a building that used to be at the corner of Stephen and Nelson moved it down. The log school was moved into town to become the first court house and jail and a building that used to be at the corner of Stephen and Nelson was used as a school.

The late Judge Corbett Locke and J. B. McLaren spearheaded a drive for a new school and the board obtained the property—the present site north of Thornhill between 10th and 11th streets—although a lot of people said it was too far out of town! The result was the building that has just ended its days. Considered then one of the finest in the province, it cost \$16,000. Builders were H. McGinnis, Scott and Rutherford, Geo. Selley, John Morran, Wm. Bell and others. The school opened in 1894, with the late W. J. Cram as principal.

The fine old building served long and well.—The Morden Times.

### Home Workshop

#### PIPE RACKS

If you want the family to treat your pipes with proper respect, make a rack for them that will do them proud and let it include humidifier drawers that will keep your favorite tobaccos moist. The larger of these two pipe racks also has a handy drawer for pipe cleaners and odds and ends. It is seventeen inches high, twelve inches wide and displays a dozen pipes. The smaller rack is the same width but only two-thirds as high and holds a half-dozen. Clear pine or any wood that takes a high polish would be the kind to use. The humidifiers are air-tight glass jars. The pattern gives tracing diagrams for the shaped parts as well as the steps in assembling and finishing. Ask for pattern 406 and enclose 35c.

You can make this cement bird bath. The mold for forming the concrete is a simple job using common mason lath. A little cement, sand and gravel are all you need for the concrete mix. The pattern shows just how to use the lath to get the fluted effect of the pedestal, and the octagonal basin. Once the forms are made the materials for a number of these attractive baths cost very little. The pattern gives actual-size guides for preparing the molds as well as the formula for the concrete; and the construction steps are illustrated. A few bird houses and a feeder are sure to attract the songsters. A number of interesting designs are included in the Bird House packet which is priced at \$1.50. The bath pattern 227 only is 35c postpaid.

Vancouver, B.C.

### FARMER SHOT OWN CHICKENS BY MISTAKE

TONKIN, Sask. — George White, a farmer who recently had some chickens stolen, jumped out of bed one night when he heard a strange noise from the chicken coop.

Dressed only in his long underwear, he grabbed a shotgun and went outside. Just as he kicked open the door to the chicken house and poked the gun in, a dog which was following unknowingly nudged him with his cold nose.

The gun went off and White shot 28 of his own chickens.

#### PRINTED IN 1777

REGINA. — Printed in 1777, a "new and correct map of North America" is on display in the Legislature library here. It is in the custody of the library's archives division. 3087

## Funny and Otherwise

The worried man appealed to the psychiatrist: "You've got to help me doctor! All day long I want to eat grapes."

"Well, think nothing of that," soothed the doctor. "Everybody eats grapes."

"Off the wallpaper?"

"Ruth," moaned her long-suffering husband, "you promised you wouldn't buy a new dress. What made you do it?"

"Dear," replied the modern Eve, "the devil tempted me."

"Why didn't you say: 'Get thee behind me, Satan?'" the poor man inquired.

"I did," the woman replied, sweetly, "and then he whispered over my shoulder: 'My dear, it fits you just beautifully at the back.'"

Circus manager: "You are pretty small for a wild animal trainer."

Applicant: "That's the secret of my success; they're waiting for me to grow a little larger."

About the best way to solve your problem is to swap it with the other fellow. He always knows how to solve every problem except his.

"What makes you think your wife is getting tired of you?"

"Every day this week she's wrapped my lunch in a road map."

They sat in the gloaming. "Just one," he pleaded.

"No, certainly not," she replied.

"Please, darling," he persisted.

"Don't ask me again," she insisted. "I've only one left, and I want to smoke that on the way to the office in the morning."

A preacher met one of his flock. "You were not at church last Sunday," said the parson.

"Too wet," was the reply.

"But," protested the minister, "it's always dry inside."

"That's another reason I wasn't there."

The chemist was getting exasperated. He had been explaining and pricing dozens of articles to the shopper, who didn't really want to buy anything.

Finally she picked up a bottle. "Is this Pest Exterminator reliable?" she asked.

"How is it applied?"

"You take a teaspoonful every half-hour, madam," the chemist replied pointedly.

Friend: "Well, and how's married life?"

Bride: "Wonderful—but what do you think? My husband really does stutter and I'd always thought it was emotion."

A Hollywood producer was filming a Biblical scene. Things were not going too well, and he stormed and raved about the studio.

"Listen to me, you guys!" he shouted. "I'm paying a thousand dollars a day for this sound apparatus, and I mean to get my money's worth. When those Ten Commandments are broken I want to hear 'em break! Get me?"

The office boy had been missing for the best part of the morning.

"Where the dickens have you been?" his employer demanded when at long last the lad sauntered in.

"To the post office, sir."

"And does it take you two hours to post a letter?"

"I beg your pardon, sir," said the lad with some heat. "Three letters!"

### Bounty Raised For Cougars In Alberta

EDMONTON, Alta. — The Alberta Lands and Forests Department has launched an intensive hunt for cougars by boosting the bounty from \$15 to \$40 a head.

Officials said there has been no marked increase of cougars but the bounty was raised to sharpen the shooting of hunters prior to the arrival of the spring crop of lambs and calves.

Canada claims more than one half of the world's fresh water.

## Enlarging Country Elevator System

REGINA, Sask. — A \$3,300,000 building program to enlarge its country elevator system was announced recently by the Saskatchewan Wheat Pool.

The pool said nearly \$2,000,000 will be used to build 20 elevators in the province and 50 annexes. All will be permanent structures.

Additions will increase capacity by 2,250,000 bushels, raising total pool capacity to 75,000,000 bushels.

The announcement said about \$1,000,000 will be spent on modernizing and maintaining other parts of the country elevator system. About \$300,000 will be spent on agents' homes.

### NAMED AFTER NURSE

Mount Edith Cavell in Alberta, named after the British nurse shot by the Germans in the First World War, towers 11,000 feet.

### MIDGET CALF

RUSSELL, Man.—A dwarf calf was born on the farm of E. B. Lyon near Binscarth. At two weeks of age, it weighed 12 pounds, was 17 inches high and 23 inches long. The tiny hereford is being raised on a bottle.

## Heating By Gas Cheap In Alberta

CALGARY. — Eastern Canada residents who wrestle with fuel bills each year can be forgiven a look of envy at Calgary, centre of Canada's largest gas pipeline system.

Millions of cubic feet of natural gas daily roar under pressure through hundreds of miles of pipelines, stretched like a spider web across southern Alberta.

Most of the gas is drawn from wells in Turner Valley, 40 miles southwest of Calgary, and Jumping Pound, 25 miles west. Pipelines reach as far as Foremost, 150 miles southeast, and to Banff, high in the Rockies, 85 miles west. The system can handle more than 160,000,000 cubic feet of gas a day.

Availability and abundance of the gas makes it cheap to Calgary consumers. Monthly gas bills for an average five-room house range from about \$3 in summer to \$11 and \$12 in winter, while the annual bill totals about \$80. The consumer rate is \$2.50 for the first 2,000 cubic feet and 26 cents for each additional 1,000.

By comparison, it costs about \$125 to heat a six-room Toronto home through a winter season using coal or oil.

Operators in the Manchester high pressure station of the Canadian Western Natural Gas Co. in Calgary, key point in the pipeline system, maintain round-the-clock supervision. They see that equal pressure is maintained for gas reaching homes and industrial plants.

A 12-inch pipeline carries gas from the Jumping Pound field. Three others, 14 inch, 10 inch and six inch, spring from Turner Valley. The four lines converge near Calgary into two 16-inch pipes shooting gas under high pressure through the plant's main control room.

## :: GEMS OF THOUGHT ::

### MISTAKES

Show us the man who never makes a mistake and we will show a man who never makes anything. —H. L. Wayland.

Any man can make a mistake, but none but a fool will continue in it. —Cicero.

No persons are more frequently wrong, than those who will not admit they are wrong. —Rochefoucauld.

Even a mild mistake must be seen as a mistake, in order to be corrected; how much more, then, should one's sins be seen and repented of, before they can be reduced to their native nothingness! —Mary Baker Eddy.

We often discover what will do, by finding out what will not do; and probably he who never made a mistake never made a discovery. —Samuel Smiles.

## :: APPETIZING RECIPES ::

These quick Hot Cross Buns are made with baking powder, bran, currants and honey. Serve them at breakfast or afternoon tea.

### Honey Hot Cross Buns

One half cup ready-to-eat bran, 1/4 cup currants, 1/4 cup milk, 1/4 cup honey, 2 cups sifted flour, 4 tps. baking powder, 1 tsp. salt, 1/4 cup shortening, 1 tps. honey, 1 tps. melted butter, 1 cup confectioners' sugar, 2 tps. milk, 1/4 tsp. vanilla.

Combine ready-to-eat bran, currants, milk and honey. Allow to stand 10 minutes. Sift flour, baking powder and salt together; cut in shortening until mixture resembles coarse cornmeal. Add

first mixture, stirring until a soft dough is formed. Turn onto floured board, knead lightly and shape into roll. Divide into 12 equal pieces. Shape into balls and flatten out to 1/2 inch thickness. Place on greased pan; brush with a mixture of honey and melted butter, and bake in preheated moderately hot oven (425 degrees F.) about 20 minutes. As soon as buns come from oven, make a cross on the top with confectioners' sugar icing. Yield: 12 buns (2 1/2 inches in diameter).

### SHORT-SIGHTED DUCK

WINNIPEG. — A short-sighted duck which mistook the Stevenson field airport landing strip for a lake and nose-dived onto the strip is quacking his way north again none the worse for wear.

The pied-billed grebe, which requires a running start on the water surface to become airborne, was foiled by the runway.

The duck was bedded down overnight and released the next day over open water.

### EXPECT GAS EXPORT DECISION IN JULY

Export of Peace River natural gas to the Northwestern United States and Vancouver likely will be approved about July 1, The Western Oil Examiner was told recently.

At the same time, Dr. C. R. Hetherington, vice-president of Westcoast Transmission and pipeline expert, added: "We have never been more confident that when the decision is announced Westcoast will be the successful applicant."

The name "monks" comes from a Greek word meaning "solitary".

### Ticklers

—By George

"Atta boy! Tell the boss off for me too."

## Spring Gloves Accent Slender Look

By EDNA MILES

Leading off the spring glove parade this year is the new, short (wrist-bone length) glove with the slim, narrow look. Even dress-up gloves have a clinging, elongated look that's in keeping with the straight silhouette in ready-to-wear.

Styling of gloves this spring is so definite that there's a type for every occasion, daytime into evening. And there are many pretty pastels: pink, yellow, blue as well as the vivid corals.

One brand new glove with real fashion impact is wrist-length and elasticized at the inside of the wrist for perfect fit and comfort. It comes in double-woven cotton, nylon and pique. Called the short-stop, it's in sparkling white.

The call for white is always heavy during spring and summer months, and for those who like their white relieved by the spice of color, there's hand-stitching in almost any color. Further, there's the new interest of white-on-white, to create texture.

In dress gloves, close fit has been assured by the use of tiny pearl buttons at the inside of the wrist or by a tiny bit of elastic.

More and more, women are choosing dress gloves in cotton or nylon because they're so easy to maintain. Like the shorter gloves, they come in white, pastels, vivid and dark colors.

New short-stop is this spring's wrist-length glove with elasticized wrist. Made of imported Italian pique, glove above is designed on a diagonal pattern for additional slenderizing.

Party-going, elbow-length gloves in double-woven nylon have three pearl buttons at the wrist to provide snug, slim fit.

## Swift Current Nearly Has 300 Businesses

The tremendous development in Swift Current's business, wholesale and industrial economy over the past decade has been highlighted by the 1954 membership list issued by the Chamber of Commerce. It may come as a distinct surprise to many people to know there are now operating in this city a grand total of 275 businesses. There was a time not too long ago, that a Chamber of Commerce list was tops at about 115 to 125 business places being members.

It is also shown that the city's debenture debt has been cut by \$200,000 in the past 10 years, besides providing a tremendous amount of money for capital expenditures. Contracts were let for a new school and an addition to cost \$200,000. A separate paragraph is devoted to the oil exploration business which has had considerable repercussion on the economic life of this community in many ways, with four producing fields in fairly close proximity to the city being Fosterston, Success, Cantuar and North Premier.

An indication of Swift Current's development is shown by Dominion Bureau of Statistics figures, with retail sales for 1941 being \$4,175,000, which jumped to \$13,323,000 in 1951, last figures available. Permits for commercial development in Swift Current in 1953 totalled \$568,000. Such organizations as the Saskatchewan Motor Club and Central Mortgage and Housing Corporation have now opened branches here.

## Home For Bear Cub Available

LETHBRIDGE.—Message to Mr. Kenneth Mack of Campbellford, Ont.

If that bear cub of yours is still eating you out of house and home just ship him to Lethbridge. There's a lady here will look after him.

Mr. Mack acquired the young cub after he frightened the mother away while chopping down a stump. The little fellow's picture appeared in newspapers with the offer "anyone want a bear cub?"

Now, Mrs. Kathleen Gesinghaus of Lethbridge says she wants a bear cub. She has a nice big backyard, she says, and a good big house in the yard in which he could live.

Mr. Gesinghaus is all in favor of the idea too.

"We both like bears," says Mrs. Gesinghaus. "We took care of a bear before in England. Just looked after it for a while for a friend."

"We'll make a real pet out of him," Mrs. Gesinghaus promised.

Rosin is graded and sold on the basis of color, the paler colors bringing higher prices.

## To Grow Sweet Corn Successfully

Many people find growing good sweet or table corn difficult. Over 50 years' experience with growing table corn at the Indian Head Experimental Farm has yielded observations and experimental results which may assist most people to grow better corn, says W. A. Russell.

First, choose an early maturing variety. Dorinny and Banting are both early and of good quality although they are not heavy yielders. The hybrids Spancross, Marcross and Sugar Prince are about midseason. They have fairly good quality and yield heavily. Late varieties should not be grown. The average season is too short for them to mature.

Secondly, plant sweet corn early. Plantings made between May 15 and May 25 yield better than those made at a later date. Sow two or more early to midseason varieties together at an early date to extend the harvest season.

Thirdly, choose a warm sheltered location for sweet corn. Plantings made on the south or western side of a building or shelter, often produce earlier yields than plantings made in the open. Plantings made on a gentle southern or southwestern slope are affected in the same way.

Sweet corn is a warm season crop which takes a long time to mature. Select early varieties, sow them early in a favored warm location and you can enjoy eating good corn from your own garden.

## HERE'S HEALTH

A lazy lad is little Ray Slumping at his desk all day. Margie sits up straight and tall. With health she's really on the ball.

Dept. of National Health and Welfare

Roger Bacon, inventor of the magnifying glass, was the first to suggest artificial aid for those with impaired eyesight.

## On The Side - By E. V. Durling

In the days beyond recall, when Lillian Russell entered a restaurant, the orchestra stopped whatever it was playing and rendered "Come Down, My Evening Star." That was Lillian's hit song. When Anna Held appeared, the band played, "Won't You Come and Play With Me?" For Nora Bayes, it was, "Shine on Harvest Moon." That was a gracious gesture of an era of gallantry.

### Longer Golf Drives

Now being offered for sale is a golf ball claimed to go 10 yards farther on a drive than any ball on the market. Reason for added distance are diamond markings on the cover. So, now even the golfers have to have a lively ball. They don't want to depend altogether on their golfing ability.

### Danish Fashion Show

The Danish mannequins are the world's most beautiful models. They are practically all natural blondes. In Copenhagen recently, there was held a "Dress-a-Minute" fashion show. One hundred and twenty-five different dresses were shown in 130 minutes. Sounds like a world's record.

### But Some Like Pipes

Many women believe smoking a pipe gives a man a distinguished appearance. Also makes the smoker look slightly intellectual. Perhaps the ladies are right. In any event, there is no doubt that many a cigar smoker has been influenced by his wife to switch to a pipe for this reason. Some of the husbands make the switch because of love. The rest are afraid not to. They are dominated by their matrimonial mates. Of course, such men were never true cigar smokers. All real cigar smokers are strictly in accord with Mr. Kipling's immortal observation as to cigars and women.

### A Job for Women

Who designs kitchens? Insofar as the designing of kitchens for homes is concerned, shouldn't that be an exclusive feminine occupation? The home kitchen designer should be a housewife of long and varied experience. Too many kitchens designed by men are not as practical as they might be. They require the housewife to take too many steps. They also are often designed in a way that makes the poor home manager bend down too much. Many kitchens are so arranged as to be all right for tall women but tough on the cute little tricks.

### Smart Lads

Can you answer the following question? What would I be carrying home if I brought an antimacassar, a dinghy, a sarong and an apertyx? That was the first query put to the youngsters on a "Quiz Kid" radio program. That was in 1940. They answered it correctly. It was a seven-year-old quiz kid who described an apertyx. Smra lad, I was 14 before I even knew what an anti-macassar was.

\* \* \* \*

**SCENE OF CANADA'S WORST PLANE DISASTER**—Thirty-seven persons lost their lives when a TCA North Star airliner and a RCAF Harvard trainer collided in the air over Moose Jaw, Sask., recently. The aerial view above shows a part of the smoldering ruins of the crash. Among those killed were Rodney Adamson, Conservative Member of Parliament for York West, Mrs. Adamson, who was accompanying her husband to Calgary where he was scheduled to make a speech. T. M. "Pat" Reid, whose legends while flying as a bush pilot in Canada's north will be forever remembered and Mrs. Reid who was accompanying the Imperial Oil executive.

**SIGNS OF THE TIMES**—With cans of coffee rivaling gems in value, Fort Worth, Tex., jeweler and loan shop operator Nathan Rosenberg treats them as any other pawnable assets. Sign reads: "We will loan 70 cents per pound on standard brand coffees."

**WELL DONE**—Bantam Ben Hogan shakes hands with Sam Snead, left, after the latter beat him in a recent playoff for the coveted Masters golf crown at Augusta Ga. The one stroke edge for Sam meant a purse of \$5,000 to him.

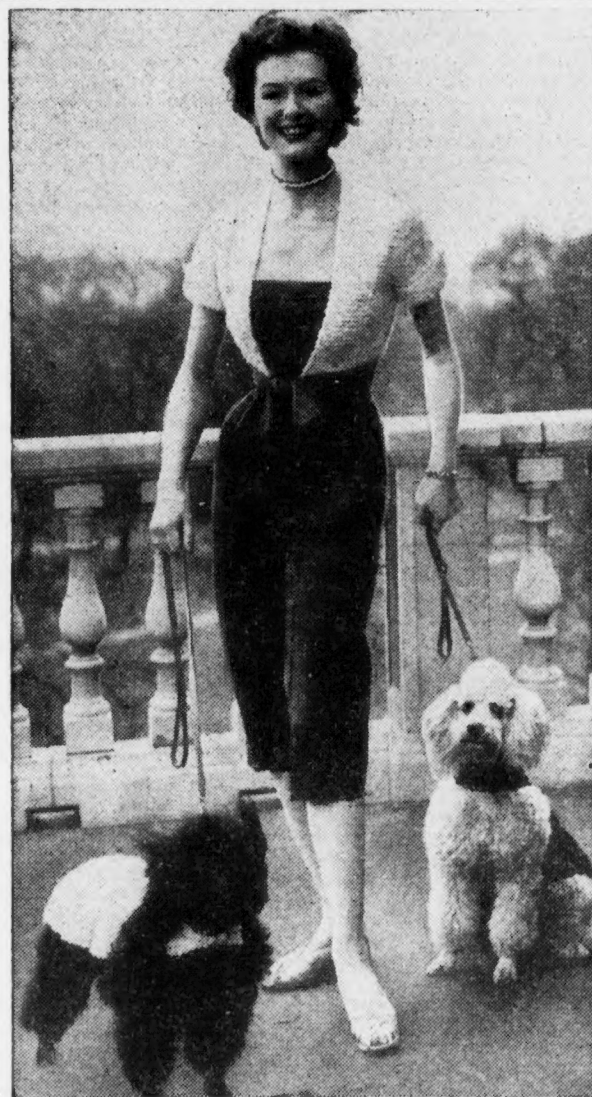

**OLD HABIT**—Sawing wood at the age of 97 is Wallace A. Bentley, of New Marlboro, Mass. Bentley saws wood for about two hours a day for exercise. A retired blacksmith, Bentley attributes his longevity to tobacco-chewing, a practice he began when he was eight.

**PUTTERING AROUND**—Wearing a pert Scots tam and a sunny smile, lovely Ruth Hampton briefs herself on the golfer's point of view in Las Vegas, Nev. The shapely actress is studying for her role as queen of the forthcoming \$35,000 Tournament of Champions there.

## LEARNED FROM EGYPTIANS

Spaniards, who learned the Egyptian art of making mud bricks from the ancient Moors, brought it to America, where it is still used for building structures in the southwestern part of the United States.

**THE BOLERO** worn by Audrey White is made of eight ounces of poodle wool. The dogs with her wear two poodle wool coats, their own and hand-knitted ones of two and one-half ounces each. They were appearing at a London fashion display.

**THE RT. HON. DUNCAN SANDYS**, British Minister of Supply, got a quick look at secret land, sea and air projects in Montreal recently. Mr. Sandys viewed Canadian Vickers, Canadair and the Army's Central Ordnance Depot during the stop-over. He is shown in the above photo with Maj.-Gen. Bernatchez, GOC Quebec.

**KEEPING WARM**—At chicken farms throughout Europe, incubators are at a premium, so scenes like the above are not uncommon. These six-hour-old chicks seem quite content in the arms of a young Hamburg, Germany, lass. And she seems quite content, too.

## Some Tips For Sprinters

The following are a few tips that the young sprinter (or the tennis or baseball player) can use to help give them that extra yard or two.

(1) Keep your chest high and your stomach well in when running as such a posture frees your hip area from any restriction and enables you to move those legs faster. Learn to "run tall".

(2) Keep your knees ahead of your feet. Don't reach with your feet. Concentrate on bringing your knees through quickly, trying to point them ahead as they come through. This will give you an ideal driving leg action.

(3) Learn to run loose and easy by doing lots of alternate tense and loose bursts. Run with your muscles tight for a few yards and then let them go loose and easy for another short distance. Alternating in this way will teach you the difference between tension and relaxation and also teach you to keep loose. Remember—relaxation in action is a key to top efficiency.

## Don't Pull Away When Swinging

According to a recent moving picture study of big league hitters, one of the most common hitting faults is pulling away as the swing is made. In other words, the hitter, trying to get extra power, pulls his head and shoulders away to the side. This spoils the level swing of the bat, pulling it up and away from the ball and also means the eyes have been taken off the flight of the ball. Learn to keep your head down and over the ball until it is hit. Have a pal check your swing to see if you "pull away".

## A Famous Trainer Considers Diet

Bill Linsky, Secretary of the United States National Trainers Association, when asked recently what he considered to be the main fundamentals of good athletic nutrition said, "I observe the following fundamental rules:

(1) Make your bread whole grain or if you prefer white, be sure it is enriched white bread.

(2) Eat four times as much protein food as any other type. Protein foods are: milk, meat, cheese (great for athletes), whole grain cereals and breads; ice cream; fresh nuts. Athletes can't drink too much milk when in heavy training. Cheese is good for the nerves.

(3) Go real heavy on those fresh fruits, especially oranges and grapefruit and always have a good supply of fresh vegetables per day.

(4) Use honey for your sweetener in beverages, on cereal and as a spread on bread or toast. It's tops for energy with me.

(5) Keep the table cheerful and don't allow any arguments of any kind. A cheerful training table or home dining table means better digestion and this means a lot to the athlete."

## Kitchen Meditations By JANE DALE

### THOSE GOOD OLD DAYS!

"When we came to Manitoba," the old man would say, "We lived in a sod house for many a day; A storm-proof place, well chinked with clay." His old wife looked up from her knitting to sigh, "And when it rained nary a spot in it was dry!"

"We had plenty to eat," he loved to recall. "Prairie chicken in winter, and deer in the fall; I don't think we were ever short of food at all."

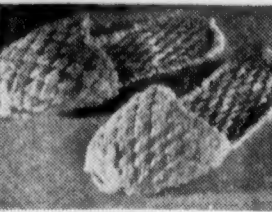

She looked a bit weary as she untangled her skein, "I don't want to see those lean years ever again!"

"We stayed on our homestead through plagues, droughts, and frost. When others just quit; gave it all up for lost."

He spoke rather lightly, "It was worth what it cost." His old wife gazed past him with remembering eye, "I was alone — all alone — and watched my babe die!"

Mauna Loa, 13,680-foot-high volcanic peak in Hawaii, is believed to be the world's largest mountain in total volume.

## LINDALEE NEEDLE-WEAVE

Wedding showers will soon be honoring the June brides-to-be. What more delightful gift than these needle-woven mules to match her negligee! Complete instructions in the Lindalee Needle-Weaving Instruction Book (45 cents). Needle-weaving is new, different, easy to do, won't shrink, won't sag or bag takes half the wool of knitting and one-third the time of a fast knitter. Only nine different stitches to learn for all purposes. Eleven patterns in the book. Order through—

Dept. PPL, Home Workshop, Patterns, 4438 West Fifth Ave., Vancouver, B.C.

## WEEKLY BIBLE COMMENT

### MOSES IS CREDITED WITH THE BUILDING OF JEWISH NATION

It is one thing to deliver a people from bondage, but another thing to build them into a strong, sound and prosperous nation.

That was a lesson that Moses learned, and it is a lesson that we are learning in these days of world wars.

In the Old Testament, and the New Testament as well, it is Moses who is recognized as the founder and builder of the national and religious life, following the return of the Hebrews from Egypt.

One cannot tell, even after consulting the seemingly best authorities, how much of Jewish law and ritual was based upon the original foundation laid by Moses. But it is notable that the authority of Moses was attributed to whatever came later.

First and probably basic was the insistence upon racial and national unity as the essential means of strength and preparedness. Strong interdiction against mixed marriages and utter destruction of enemies were sought to achieve this unity.

Though such measures seem unjust, the principle of unity is sound. No nation with intermingled

racess can be strong unless all elements are built into one united people, as they are in this country and Canada.

Moses built upon the foundation of religion. The harshness of various measures was designed to prevent idolatry and the running of the people after strange gods. The integrity of religious life, allowing for freedom of faith, must be as valid today as it was then.

Much, undoubtedly, in law and ritual was directed toward the maintenance of good health in the individual and society.

Much, also, was designed to prevent social abuses—the strong overriding the weak, antisocial acts of immorality and unneighborliness.

How much the world needs a Moses!

London's Big Ben clock is the most accurate of all giant time pieces.

## Using Midget "Walkie Talkies"

REGINA, Sask.—The provincial natural resources department's radio communications branch plans to produce about 15 midget "walkie talkie" radios this summer, according to R. Hook, branch director.

Various designs of midget, two-way radio sets are now on the branch's drawing boards.

He said the radios were being designed primarily for forest fire protection purposes. They would be used for scouting fires, air to ground contact on fire control section and, to a lesser extent for game patrol work. The sets would be issued to department conservation officers and patrolmen.

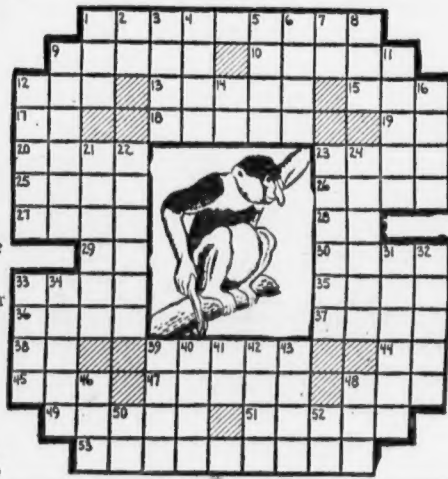

Milk snakes are so called because, erroneously, they were once thought to milk cows. 3087

### Sun'n' Fun

4524  
SIZES  
1-5 yrs.

by Anne Adams

YOUR BABY'S GROWING UP! You want these adorables for her now! Precious scalloped dress has wings or puff-sleeves and a sweet-heart penny-pocket! Sunsuit is ONE PIECE, opens flat to iron, seat lets down for quick changes. Bonnet is one piece also.

Pattern 4524: Toddler Sizes 1, 2, 3, 4, 5. Size 2 dress, 1½ yards 35-inch; playsuit, 1½ yards.

This pattern easy to use, simple to sew, is tested for fit. Has complete illustrated instructions.

Send thirty-five cents (35c) in coins (stamps cannot be accepted) for this pattern. Write plainly Size, Name, Address and Style Number and send orders to:

Department P.P.L.  
Anne Adams Pattern Dept.  
60 Front Street W., Toronto.

## Cattle Raising Still Big Industry In Alberta

CALGARY.—The great ranches of the Rocky Mountain foothills and plains of Alberta have disappeared, and the long cattle drives to market are remembered now only by a few oldtimers. Yet, cattle raising still is a big industry in Alberta. There are more cattle in the province now than ever before.

In a normal week, about 5,000 cattle are delivered to the stockyards in Calgary, heart of the ranching country. Cash returns to stock producers in 1953 totalled more than \$35,500,000.

Each week day trucks loaded with cattle stream into Calgary from farms and ranches within a 100-mile radius. At the start of the week, trucks sometimes are lined up for blocks leading to the 22-acre stockyards and its 700 pens.

### Wetaskiwin To Have Artificial Ice

Artificial ice is assured for Wetaskiwin. It was reported at a meeting of the Wetaskiwin Curling Club recently.

Canvassers' reports indicated that the number of signers for 100 memberships has passed the 150 mark, which was the minimum set by the Club to justify it going ahead with their plans.

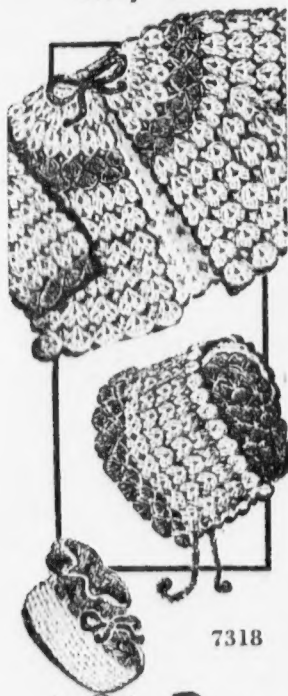

There was also an indication that the 200 membership mark would be reached without too much trouble, because the canvass had yielded 150 without going into neighboring communities such as Millet. The idea had been to give local subscribers first chance.

In addition, the executive decided to provide for instalment buying of memberships — \$20 down and \$10 a month. This should assure the club of getting the full 200 members.

Butch Dyberg, president, said that tenders will be called for immediately for the installation of the plant.

Information had been received that Vegreville and Camrose intended to go ahead with their artificial ice plans, and there was a possibility that Wetaskiwin might have to wait longer if the order was not placed at once.—Wetaskiwin Times.

## Patterns Jiffy Set

by Alice Brooks

QUICK CROCHET! You'll have baby's new booties, cap and jacket finished in a jiffy! They are made in open and closed shell-stitches in a 3-ply baby yarn. Use white with pastel pink, blue or yellow.

Pattern 7318; crochet directions for infants' cap, booties, jacket.

To obtain this pattern send twenty-five cents in coins (stamps cannot be accepted) to:

Department P.P.L.  
Household Arts Department,  
60 Front Street W., Toronto

Be sure to write plainly your Name, Address and Pattern Number.

TEN COMPLETE PATTERNS to sew, embroider, crochet—printed right in the Alice Brooks Needlecraft Book! Plus many more patterns to send for—including gift ideas, bazaar money-makers, toys, fashions! Send 25 cents now!

3087

In 1953, some 264,000 cattle and calves, 146,000 hogs, 41,000 sheep and 1,300 horses were delivered to the yards. Actual sales included 232,000 cattle and calves, 85,000 hogs and 11,000 sheep. The remainder were handled for feed and water on through-billing.

On the peak day last year, 418 trucks stopped at the yards, followed by 353 trucks the next day. In the two days 1,010 individual shippers delivered 5,300 cattle and calves, 1,000 hogs and 400 sheep. At the same time, there were 23 carloads of livestock on track.

The Calgary yards, next in size to those in Toronto and Winnipeg, are owned by Alberta Stockyards Co., a subsidiary of the C.P.R. The company was formed in 1903 by ranchers and bought by the railway in 1911.

A special feature of the Calgary yards is that cattle are sold by auction.

### In Saskatchewan

#### Appropriation For Northern Highway

Eiling Kramer, M.L.A., The Battlefords, said recently that J. H. Brockelbank, Minister of Natural Resources, has announced a \$75,000 appropriation for reconstruction of the road from Beauval south to the boundary line of the Meadow Lake local improvement district, where the existing trail meets the Waterhen River.

The road-building program is to be carried out by the department's own construction branch, and while it was not revealed what the specifications of the road would be, it will definitely be designed to carry heavy truck traffic between Green Lake and Beauval.

Beauval is about 160 miles northeast of Meadow Lake, and the proposed work should result in a year-round land route connecting that settlement with the recently completed secondary highway terminating at Green Lake.

This whole northern area is rich in timber, minerals and fish, to say nothing of the vast potential as a tourist area. Development to date has been hampered by its inaccessibility throughout many months of the year, more especially so in the rainy season when the present trail becomes almost impassable for any type of vehicle.

Although this year's appropriation is not large enough to finish all the construction needed between the two points, the money is to be used to extend the work as far as possible.

#### Plan Approved To Build \$20,000 Skating Rink

DAUPHIN, Man.—Approval to build a \$20,000 municipal skating rink in Winnipegosis was given by ratepayers of the village in a referendum held March 25.

The village council will issue debentures to the total amount of \$20,000 to gain the necessary funds. Construction is expected to begin this year.

The vote went through with little difficulty, a good majority of the ratepayers favoring the plan.

#### SUGGESTED MONKEY SKINS

ROCKY MOUNTAIN HOUSE, Alta.—A group of boys attending school on the gold coast of West Africa wrote here asking for correspondents, saying they are anxious to know about Canada. They suggested an exchange of gifts and offered monkey skins, among other things.

**CHAIRMAN** — Mr. Gerry O'Shaughnessy, Commissioner of the Moose Jaw Chamber of Commerce, replaces Mr. R. L. Hutchinson as chairman of the Saskatchewan Golden Jubilee homecoming and reception committee. Mr. Hutchinson's resignation from chairmanship was for reasons of health, although he still remains a member of the committee.

## Fire Fighting A Joint Effort On Manitoba-Ontario Border

Manitoba and Ontario will act co-operatively this spring to meet the threat of forest fire along their mutual border. Plans for protection and detection were discussed at the annual meeting of the Fire Protection Divisions of the forestry services of the two provinces held recently in Winnipeg.

Until a short time ago, it was noted, boundaries of the provinces formed a very real line over which the various provincial services seldom strayed. Today the situation is very different, with radio and telephone communication playing an important part in mutual protection.

"Having radio communication and the look-out maps of the other province has facilitated detection along our boundary to the point where it is not uncommon to find the crew of one province fighting fires in the neighboring province," an official of the Manitoba service reported.

Aircraft patrol, another recognized phase of detection, and fire fighting crews on either side or the boundary when fires threaten.

Representatives of the two provinces also discussed fire-fighting equipment and demonstrated their various methods of suppression. J. G. Somers, Provincial Forester for Manitoba, and T. E. Mackey, Chief of Fire Protection in the Ontario Forest Service, both commented favorably on the benefits derived from the exchange of ideas and types of equipment.

Hon. C. E. Greenlay, Minister of Mines and Natural Resources, welcomed the Ontario delegates and expressed his approval of the co-operation between the provinces.

Others at the meeting included J. Barron, Regional Forester for the Western District of Ontario, and his District Foresters; District Foresters for the Province of Manitoba; and forest rangers of both services whose districts adjoin the boundary.

### U.S. PILOT LANDS PLANE ON HIGHWAY

BROOKS, Alta.—"Alberta sure must have lots of oil, I didn't know you had such a nice long runway, all across the province," commented Joe Guyer, oil geologist from Denver, Colo., as he landed his plane on the No. 1 highway between Brooks and Tilley recently. Joe had run out of gas and, after assuring himself that there was no traffic at that particular time, set his plane down on the wide, hard-topped surface.

### DOUBLING OF ALBERTA'S POPULATION

EDMONTON.—Doubling of Alberta's population to 2,000,000 within nine or 10 years from now is predicted by Hon. C. E. Gerhart, minister of municipal affairs.

A shark's skin is not covered with scales like that of other fish.

## Garden Notes

For Amateur Gardeners

### Fertilizers

It is becoming more and more difficult to get manure. And even if we are lucky enough to locate a supply, often it is so filled with weeds, that there is a good deal of trouble. More and more the gardener is forced to use a substitute.

Commonest of all, is chemical fertilizer, which comes in bags or boxes with a formula attached showing the percentage of nitrogen, phosphoric acid and potash, the major ingredients necessary. This fertilizer should be used carefully and according to directions. It is best dissolved in water and applied that way or sprinkled or mixed with the soil just before a rain or a thorough watering with a hose. This prevents it burning tender foliage and roots. Where watering is not feasible, one is advised to sprinkle lightly over the soil near but not actually

touching roots or plants, and work in with a cultivator.

Where one uses chemical fertilizer regularly one should also work in humus or dig or plow under green manure. Humus is simply well rotted vegetable refuse, such as leaves, weeds, grass clippings or even clean garbage mixed with fine soil. Every good gardener has a pile of this stuff hidden behind some shrubbery where the rotting process goes on. That process can be greatly hastened by some of the commercial bacteria preparations now on the market and by frequent turning and watering.

Green manure is the technical name for crops of clover, fall rye, buckwheat, oats and similar things that are sown in vacant places in the garden, allowed to grow well and then dug or plowed under lightly. This sort of thing and humus adds fibre to the soil, loosening clay and improving sandy soils and making them more open and friable and therefore more able to retain valuable moisture.

### Watch for Bugs

With so many easily applied chemical mixtures on the market, there is little excuse for having our flowers and vegetables damaged by bugs or diseases. It is no longer necessary to prepare various concoctions. All that one has to do is to go to the nearest seed store, tell them our troubles and get some handy preparation which is simply dusted or sprayed on. For every bug or disease there is a specific cure or control. The main thing is to start control measures just as soon as the first injury appears. Treatment is not expensive.

One other point. A healthy, clean and growing garden is the best insurance against injury. Well spaced, well cultivated plants are far less susceptible to trouble than neglected plots overrun with weeds. Prompt clean-up measures, after harvest or blooming, and in the spring and fall will also help greatly. Many bugs and diseases live over in the ground, or in weeds along the edge of the garden. Cleaning these up regularly will help substantially in keeping a garden healthy.

### Keep Planting

For a great many of the common vegetables one can and should continue planting at two week intervals right up to the first or second week in July. Beans, corn, carrots, beets, lettuce and other quick growing types are in this class. By spreading out in this way we spread out the harvest and increase by many times the yield from the average garden. We can further spread out by using early, medium and late varieties. With flowers, too, the season of bloom can be extended by the same method.

## Helpful Hints

Take the meat out of the paper before putting it in the ice-box, as paper has a tendency to absorb the juices.

An excellent linen closet can be made from an unused bookcase. If curtains are fastened inside the glass doors it will add to the appearance.

Do not attempt to sweep up soot from a carpet, or a smear is liable to result. Instead, cover it quickly with salt. Then sweep this up carefully and no smear will be left.

The flavor of oatmeal will be greatly improved if a little sugar is added to it when cooking, instead of waiting to put it on at the table.

### STRANGE MARKINGS FOUND

Scientists believe that an ancient religious cult made up of medicine men and slaves left the strange marking found on many stones in southeastern Alaska.

### VIRGIL

By Len Kleis

## OUR COMPLETE SHORT STORY—

## Wake Up, Lydia

By F. T. Martin

"I'm not one to talk," whined Lydia Doolittle, "but it's gospel."

Beady eyes squinted with glee as she glanced furtively around the post office. She watched the effect of her words on the clerk. Satisfied, she clutched a handful of skirt and hobbled toward the door.

Suddenly she stopped. "My land!" she squeaked.

One of the posters on the bulletin board bore front and side view pictures of a man. Reward was offered for information leading to the capture of one Ralph Brady, wanted for armed robbery.

The spinster Doolittle adjusted her ancient spectacles.

"My eyes ain't what they was," she muttered, "but if that don't look like that Smith feller who's been hangin' around. It's good somebody in Colville is awake."

The clerk left the stamp window for a moment. Temptation and opportunity struck together. So did Lydia. With a darting claw, she snatched the notice, thrust it into the folds of her clothing, and went out.

"Ain't nobody a'goin' to get credit for catchin' this John Smith but me," she snorted. "Trouble is nobody's awake in this town. That's why we have only one factory."

Miss Doolittle didn't like John Smith. He had registered at the hotel, two weeks ago and no one seemed to know anything about him. All he did was wander around Colville or go over to Keene Falls and wander there. He had been seen at the railroad station one day, along the river bank on the next, or around the factory on another.

"That's it!" she cackled. "The factory! They're paying the yearly bonus next week and I'll bet that Brady alias Smith has his eye on it."

Mr. Boswell, the barber, was standing outside when she passed. "Afternoon, Miss Lydia," he called. "You look a mite flustered. Anything wrong?"

"There's plenty wrong, Will Boswell," snapped Lydia, "but you'd never know it sunnin' yourself like a cat. As a councilman you should be thinkin' about ways to perk up business around here."

"Now, Lydia..."

"Or," whispered the spinster, "a

## Danger Of Disappearance

## Seek New Site For Aklavik

EDMONTON.—A helicopter has left Edmonton to start the search for a new townsite for Aklavik, Canada's biggest Arctic settlement, which is in danger of sinking through melting permafrost and being engulfed by the Mackenzie river.

The helicopter, chartered by the federal government from Associated Helicopters Ltd., Edmonton, left here for the 1,500-mile flight to Aklavik, on the Mackenzie river delta 120 miles inside the Arctic circle.

The trip north is expected to take four or five days.

The helicopter has been chartered for three months.

Decision to move the site of Aklavik, which has a population of 400 most of the year, was announced by the Northwest Territories administration in December. The action also is necessitated by danger of epidemics due to unsatisfactory sanitation.

The wholesale move is expected to be completed in four years. The new site is to be surveyed this year and roads, water and sewage systems are to be constructed in 1955. The buildings will be moved by tractors during the following two winters.

The smaller settlement of Coppermine, N.W.T., 500 miles east of Aklavik, also is to be moved.

way to keep criminals off the streets."

The barber leaned forward. "Know some'n'?"

"Mebbe," answered Lydia. "Mebbe I know what that Smith feller is. Mebbe he shouldn't be walkin' the streets a free man. Good day."

Miss Doolittle made six more stops on the way home and six more cryptic remarks about John Smith. By supper time, her phone was ringing steadily. But she would say no more.

"At the proper time," she told everyone, "I'll speak my piece."

The situation, thought Lydia, was made to order.

The factory payroll delivery was next Thursday. The Colville Business Improvement Committee meeting was also Thursday. She would wait until then before telling the police. She smiled as she pictured herself marching into Grange Hall with the mysterious Mr. Smith in irons.

"Hmph! Even his name sounds fishy."

Colville began to buzz. People remarked that Mr. Smith did look as though he had a criminal face. But if John Smith suspected any of this, he didn't show it. He continued his walks, and minded his own business.

On Thursday, Miss Doolittle was also minding his business. She was in the sheriff's office, waving her poster and demanding that "the police wake up."

The sheriff waited for her to finish talking. Then he led her to the hall.

"Someone needs waking up," he said quietly.

"B-but the p-p-payroll," stammered Miss Doolittle. "It arrives in a few minutes..."

The Business Improvement Committee of Colville was in full session and there was standing room only. John Smith was speaking.

"So when my company," he was saying, "sent me to select a site for their new factory, they were concerned not only with location, but with the people. I found two suitable locations, one here and one in Keene Falls. I am sorry to say I will recommend Keene Falls."

The crowd stirred and looked at Lydia Doolittle.

Mr. Smith continued. "Naturally, you businessmen will understand that I had to keep my mission a secret to everyone except the sheriff in order that real estate prices would remain normal. You see," he added with a smile, "my name is really John Smith and it may surprise most of you to know that I am not wanted by the police."

Lydia Doolittle didn't hear any more. Her thoughts were concentrated on reaching the door but faces seemed all around. Suddenly the face of the sheriff came closest.

"If I hear another word of gossip," he said firmly, "there will be a little matter of stolen property from the post office."

But Miss Doolittle didn't hear him. She had fainted.

Titanium, least known metal in the earth's crust, is the most common.

## Manitoba Hereford Bull Sold To Alberta For \$4,000

BRANDON, Man.—Viking RJM 4th, R. J. McClement's big Hereford bull which swept the top honors list at the recent Manitoba Winter Fair, has been sold to the McIntyre Ranching Company of Alberta for \$4,000. Releasing this news, Mr. McClement said selling a Manitoba bull to one of the biggest Hereford ranches in Alberta was like taking coals to Newcastle.

"This is a real pat on the back for Manitoba Hereford breeders," he said, explaining that traditionally Alberta is the home of Herefords in Canada and rarely does an Alberta breeder, especially the big ones like McIntyre, buy an outside bull for a herd sire.

Ralph Thrall, present owner of the McIntyre ranch, required a new herd sire after his former sire won the recent Calgary bull sale show grand championship. He chose the McClement bull after receiving information regarding it from the men who judged the classes at the Winter Fair here.

"Some of the more important Alberta ranchers are casting their eyes at Manitoba herds," said Mr. McClement. He sold another bull, Fieldman, to a Rimbey, Alta., breeder two years ago, and it later won the Hereford grand championship at the Toronto Royal Fair.

As far as Mr. McClement recalls, these are the only two occasions on which Alberta Hereford breeders have bought Manitoba bulls.

Viking RJM 4th was delivered to the C.P.R. here, and left early for the McIntyre ranch. Mr. Thrall,

who is leaving on the all-expense trip to England he won along with the Calgary grand championship, bought the McClement bull sight unseen.

Main reason for changing herd sires from time to time is that new blood is required in any herd, Mr. McClement said.

New herd sire for the McClement farm, near Hayfield and about 15 miles southwest of Brandon, will be TH Larry Onward 52nd. Mr. McClement bought this bull at a Thorpe sale in North Dakota, where he also brought TH Revelation 75th, which sired his present champions.

TH Larry Onward 52nd is a three-year-old Hereford which Mr. McClement took to the 1953 Toronto Royal Fair, where it won the championship of its class.

## 9,000 NEW TELEPHONE SUBSCRIBERS

CALGARY.—Approximately 9,000 new telephone subscribers were added in Calgary in 1953, bringing number of lines in use to 49,000. The capacity of the city telephone system has doubled in the last four years.

## If You're TIRED ALL THE TIME

Everybody gets a bit run-down now and then, tired-out, heavy-headed, and maybe bothered by backaches. Perhaps nothing seriously wrong, just a temporary toxic condition caused by excess acids and wastes. That's the time to take Dodd's Kidney Pills. Dodd's stimulate the kidneys, and so help restore their normal action of removing excess acids and wastes. Then you feel better, sleep better, work better. Get Dodd's Kidney Pills now. Look for the blue box with the red band at all druggists. You can depend on Dodd's. 52

## CREAM FILLING

1/2 cup granulated sugar  
2 tablespoons BENSON'S or  
CANADA Corn Starch  
1/4 teaspoon salt

1/4 cups milk  
1 egg yolk  
1 teaspoon vanilla  
1 egg white, stiffly beaten

MIX half the sugar, BENSON'S or CANADA Corn Starch and salt in top of double boiler.

ADD milk slowly; mix until smooth.

PLACE over boiling water; cook until thick, stir well.

COVER, cook 10 minutes longer; stir occasionally.

Do not remove from heat.

STIR small amount of hot mixture into egg yolk, which has been mixed with remaining sugar.

POUR back into hot mixture.

COOK 2 minutes longer; stir constantly.

REMOVE from heat; add vanilla, gradually fold hot mixture into stiffly beaten egg white.

SPREAD between layers of cake or fill cream puffs.

YIELD: 1 3/4 cups.

## CHOCOLATE FILLING

1/2 cup granulated sugar  
2 tablespoons BENSON'S or  
CANADA Corn Starch  
1/4 teaspoon salt

1 cup milk  
1 ounce cooking chocolate  
1/2 teaspoon vanilla  
1 tablespoon butter

COMBINE sugar, BENSON'S or CANADA Corn Starch and salt in top of double boiler.

ADD milk slowly; mix until smooth; add chocolate.

COOK over boiling water until thick; stir constantly.

COVER and cook 10 minutes longer; stir occasionally.

REMOVE from heat; add vanilla and butter.

COOL; spread between layers of cake.

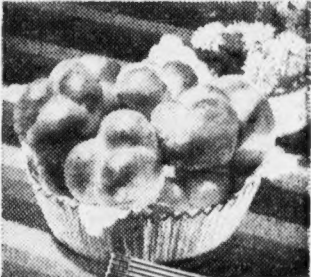

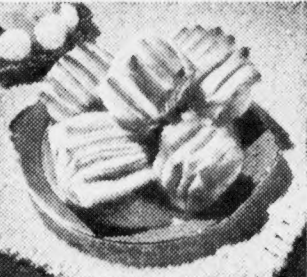

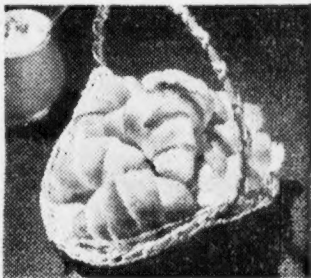

YIELD: 1 1/2 cups.

## 4 delicious treats... make them from One Basic Dough!

## It's amazingly simply with wonderful active dry yeast!

If you bake at home, find out the wonderful things you can do with Fleischmann's Active Dry Yeast! Serve fragrant rolls or fancy breads in variety from a single dough! Always get Fleischmann's Active Dry Yeast—it stays fresh in your cupboard, and acts fast in your dough!

## 1. PARKER HOUSE ROLLS

Roll out one portion of dough on lightly-floured board to 1/2-inch thickness; cut into rounds with 3-inch cutter; brush with melted butter or margarine. Grease each round deeply with dull side of knife, a little to one side of center; fold larger half over smaller half and press along the fold. Place, just touching each other, on greased cookie sheet. Grease tops. Cover and let rise until doubled in bulk. Bake in a hot oven, 400°, about 12 minutes. Makes 6 rolls.

## 2. CLOVER LEAF ROLLS

Cut one portion of dough into 8 equal-sized pieces; cut each piece into 3 little pieces. Shape each little piece of dough into a ball and brush with melted butter or margarine; arrange 3 balls in each greased muffin pan. Cover and let rise until doubled in bulk. Bake in a hot oven, 400°, about 12 minutes. Makes 8 rolls.

## 3. FAN TANS

Roll out one portion of dough on lightly-floured board into a rectangle a scant 1/2-inch thick; loosen dough, cover and let rest 5 minutes. Brush dough with melted butter or margarine and cut into strips 1 1/2 inches wide. File 7 strips one upon the other and cut into 1 1/2-inch lengths. Place each piece, a cut side up, in a greased muffin pan; separate the slices a little at the top. Cover and let rise until doubled in bulk. Bake in a hot oven, 400°, about 12 minutes. Makes 8 rolls.

## 4. CRESCENT ROLLS

Roll out one portion of dough on lightly-floured board into a 14-inch round; brush with melted butter or margarine and cut into 12 pie-shaped wedges. Roll up each wedge of dough, beginning at the outside and rolling toward the point. Arrange, well apart, on greased cookie sheet; bend each roll into a crescent shape. Brush with melted butter or margarine and sprinkle with salt. Cover and let rise until doubled in bulk. Bake in a hot oven, 400°, about 12 minutes. Makes 12 rolls.

## BASIC ROLL DOUGH

## Scald

1 cup milk  
5 tablespoons granulated sugar  
2 1/2 teaspoons salt  
4 tablespoons shortening

Remove from heat and cool to lukewarm.

In the meantime, measure into a large bowl

1/2 cup lukewarm water

1 teaspoon granulated sugar

and stir until sugar is dissolved. Sprinkle with contents of

1 envelope Fleischmann's Active Dry Yeast

Let stand 10 minutes, THEN stir well, stir in cooled milk mixture and

1/2 cup lukewarm water

Stir in

3 cups once-sifted bread flour

and beat until smooth and elastic; work in

3 cups more (about) once-sifted bread flour

Turn out on lightly-floured board and knead

dough lightly until smooth and elastic. Place in a greased bowl and grease top of dough.

Cover and set dough in warm place, free from draught, and let rise until doubled in bulk.

Turn out dough on lightly-floured board and knead lightly until smooth. Divide into 4 equal portions and finish as follows:

## Level Land

### Obituaries

#### FREDERICK BRAUNBERGER

Frederick Braunberger, 83, old timer of this district died in the Drumheller Municipal hospital April 29th. Mr. Braunberger used to live in the Level Land district for many years and his home used to be where Leo Biebrick lives now. Mr. Braunberger was a brother of C. F. Braunberger also of this district. The funeral took place from the Chapel in the Valley with Rev. Charles Cooper officiating. Interment was in Drumheller cemetery.

He was born in Russia and had resided in Alberta for the past 45 years. Surviving are his wife; three sons, Fred and Jacob of Drumheller and Ludwig of Bremerton, Wash.; five daughters, Mrs. Mary Carra at Rowley; Mrs. Eva Bruniski, Mrs. Emma Bruniski and Mrs. Mabel Grose, all of Drumheller, and Mrs. Lea Butcher of Calgary.

Elmer Koronko was out to take charge of the choir and also was in charge of the Mothers Day program.

Mr. and Mrs. Emil Tetz and daughter, Mae of Lacombe were visiting with the Tetz here and the S.D.A. Church over the past weekend.

The Young People of the S.D.A. Church held their Mothers' Day program on May 8th. Before the program was given they called on the oldest mother present, Mrs. Mary Suelzle, 78. Then they called on the youngest mother, Mrs. Glen Triebwasser, 23. Bouquets of flowers were pinned on by young girls. After this all the rest of the mothers walked up in pairs to receive their flowers.

The S.D.A. Dorcas were working in the basement May 8th. They did some quilt work and also packed a box of clothing to a widow with four children at Perryvale, Alta. The box contained sweaters, shirts, dresses, coat, pants, stockings and yard goods—in all 33 pieces.

Larry Leiske and Linden Suelzle came down from College to help their parents put in the crop

Kenneth Kindopp of Auburn, California, a son of Dr. Kindopp is spending a few weeks with his uncle and aunt, Mr. and Mrs. Jacob Gimbel and a few friends of this district. Kenneth has been a pilot for many years for the U.S.A. Govt., both passenger and cargo, going to Europe and Alaska.

Those of this district attending the Braunberger funeral were: Mr. and Mrs. Henry Stern, Mrs. David Tetz, Mr. and Mrs. John Leiske, Mr. and Mrs. Jacob Gimbel and Mrs. Sam Leiske.

Mrs. Sam Leiske and Mr. Jacob Gimbel gave two special songs for the funeral service.

John Bechthold of Calgary was visiting in this district May 9th with the Bechtholds.

Bobby Huether of Lacombe was visiting with his parents, Mr. and Mrs. Ben Huether.

Volley Ball was played Sat. and Sunday night in the S.D.A. Hall.

#### YOU CAN LIVE LIKE RILEY RIGHT HERE IN ALBERTA

Do you want to escape the high cost of living? Or retire to a log cabin where there's plenty of fishing and hunting?

It's possible to do both right here in Alberta. At the town of Cadomin, 60 miles south of Edson, neat log houses are selling as low as \$50 and the only other expenses are food and a \$5 a year rental fee for the lot.

There's no joker in the deal. Cadomin has been a Ghost Town since the Canadian Dominion Mine Company, who built the town to house its employees, closed its mine about three years ago. The Company is offering its town, house by house, to anyone who wants it.

The \$50 price is for the cheapest type of home but others can be bought for \$100 to \$200. The annual \$5 rental fee is payable to the Alberta Department of Lands and Forests since the town

Pastor and Mrs. Voth were visiting in this district May 9th.

is built on Crown land.

Stores, homes and churches now are boarded up, but a general store and a Canadian Legion hall still operate. A few retired miners live in the town still, fishing and hunting in the sportsmen's paradise around the deserted town and talking over the past when 1,200 people lived in the abandoned homes.

Living, although cheap, is not easy in Cadomin. There are no utilities and if you want coal for your stove you have to dig it yourself in the abandoned mine. There is ample water available in the nearby McLeod river but like the coal, it's not delivered to your door.

## THE ALBERTA GOLDEN JUBILEE ANTHOLOGY

The Golden Jubilee Committee of the Government of the Province of Alberta has announced the publication in 1955 of a volume to contain the best original work of Alberta authors—fiction, poetry, drama, articles and radio scripts; and has appointed an Editorial Board to make the necessary selection. Hereinunder are the rules and regulations to govern the submission of manuscripts.

### ELIGIBILITY AND RULES:-

1. Any resident of Alberta is eligible to submit manuscripts.
2. Manuscripts must be original and previously unpublished, typewritten and double-spaced. The editors, however, reserve the right to modify this regulation if necessary.
3. A pen name may be used for publication.
4. Authors desiring the return of unacceptable manuscripts please enclose a self-addressed envelope to facilitate their return.
5. Manuscripts required consist of articles relating to Alberta, historical or general, up to a length not to exceed 2,500 words; fiction on any theme, locale or period, up to a length not exceeding 5,000 words (a shorter length is preferred) Poetry not to exceed 42 lines. Radio and dramatic scripts will also be considered. Since the Editorial Board reserves the right to assign feature articles, authors with articles in mind should first write to the Secretary outlining their ideas or idea. Assignment, however, does not necessarily mean acceptance.
6. Under a standard contract agreement with the publisher, McClelland and Stewart, royalties deriving from the sale of the book will be paid to the Edmonton Branch, Canadian Authors' Association. After deducting necessary expenses, the Edmonton Branch, Canadian Authors' Association will pay such monies to the authors published in the book on a pro rata basis.
7. All rights (inclusive of second rights, reprint, periodicals, TV, and motion picture) are to be held by the publisher.
8. The Editorial Board will evaluate all scripts, reserving the right to alter, rewrite, condense, and combine manuscripts. Final selection of manuscripts, however, will be made by the editors of McClelland and Stewart.
9. The submission of any manuscript signifies an acceptance of all the rules, regulations, and conditions as above stated.
10. DEADLINE—All manuscripts must be in the hands of the Secretary by June 30th, 1954.
11. Manuscripts should be sent by first-class mail to:  
Mrs. Margaret Johnson, Secretary, Editorial Board,  
7615 - 111th Street, Edmonton, Alberta.

Further information may be obtained from Blake MacKenzie, Secretary, Golden Jubilee Committee.
